Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 July 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

Response to Arguments

Applicant's arguments, filed July 26, 2006 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of Long et al. (US 6,804,267).

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 5, 9, 13 and 31 are rejected under 35 U.S.C. 102(e) as being anticipated by Long et al. (US 6,804,267).

1. Regarding claims 1, 5, 9, 13 and 31, Long discloses a communication system (fig. 6) which sets a periodic transmission timing (items 22, 28, 22, 28, ...; col. 7, line 19-24 and 37-46) includes a data transmission time (item 22) which is the time suitable for data transmission in the period and a quasi-data transmission time (item 28) which is the time other than the data transmission time in the same period. A set of data bits to be transmitted over several periods of the transmission timing are organized into units of symbols and assigned to bit spaces allocated for transmission (fig. 11, item 102) in such a manner that all the data bits in each of the symbols are transmitted on the network path during the data transmission time of that same period of the transmission timing (col. 1, lines 42-47; note: bit counter ends the transmission of data; col. 7, lines 37-39; fig. 8; col. 8, lines 38-41). The received data symbols are decoded (fig. 9). Further regarding claim 31, the data is distributed uniformly over the data transmission duration within the given period (col. 11, lines 10-16; note: 500K symbols per transmit window).

Allowable Subject Matter

2. Claims 2-4, 6-8, 10-12 and 14-30 are allowed.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Amrany et al. (US 6,266,347) discloses transmitting symbols within FEXT and NEXT periods (abstract; figs 4-5).

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
